Sub: Matter of modern equipment for Indoor Stadium

Dear Sir,

The Gujarat Gymnastics Association informs you that gymnastics has been practiced at the Pandit Deendayal Indoor Stadium for over 16 years. Earlier at that time gymnastics equipment was made of wood but now it is improved and made of fibber. Matt's condition is not very good as a result of long practice. Athletes especially need modern equipment to practice good gymnastics. National and international gymnasts practice in the stadium. Many of them brought medals from national and international level for the state and the country. Modern equipment is needed to get better results.

So the Gujarat Gymnastics Association is requesting you to think about gymnasts and also think about modern equipment.

Thanking you

Mr.Kaushik Bidiwala
